Historic Georgetown

Driving the Guanella Pass Scenic and Historic Byway takes you up into aspen filled mountains where you will experience clear mountain lakes, waterfalls, incredible flora and fauna, animals, and trail heads along the way. This byway is also a spectacular drive in the fall, as the aspens put on their autumn best and shower the byway with leaves of gold. Mount Bierstadt, a popular 14,000-foot peak, is also accessible from the summit of the pass for those interested in mountaineering. Also, be sure to enjoy the local shopping, dining and attractions along the way!
