

# come CLOSER

## *To the Top of the World*

Travel the Highest Paved Road in North America! drive up you will pass several mountain lakes, and wind through the gorgeous Alpine Meadows, an ancient Bristlecone Pine forest with miles of undisturbed tundra, amazing plant life, and plentiful wildlife. You may even see Mountain Goats, Marmots, and many more animals along the way.

Once you reach the Summit of Mount Evans, you will be at 14,265 feet with incredible views of the entire Front Range and the Continental Divide. Many of the flora and fauna life zones at the Summit are the same as those found at the Arctic Circle.

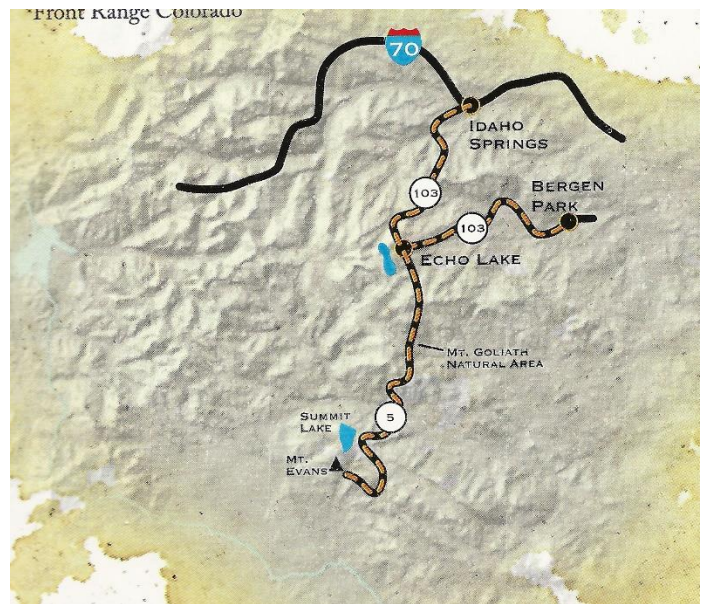

# NOT-TO-BE-MISSED EXPERIENCES

- Stroll the Idaho Springs Downtown Historic District
